Senate Microsite: Design Meeting Notes Meeting II

What I like: The text and images are very strong. The timeline idea is awesome and I would like stuff like that. Very informational!

What I would Add: I would like silhouettes in the background, adobe stock has plenty.

What I would Change:

- Include White in my opinion, I feel like the colors are very bold so maybe a eggshell white or just white could make it softer or even lean into the bold aesthetic.
- Play around with the typesetting
- Im sorry if my pages are too much or too long, feel free to shorten in it or remove sections that seem unnecessary.
